

# PU foam cans (emptied - without special items) - resources potential

Product recipient:  
PDR Recycling, D-Thurnau  
www.pdr.de

PRODUKTE DURCH RECYCLING

- Raw material use:
  - preparation for reuse
  - material recycling

- Energetic use:
  - production of a substitute combustible
  - energetic recovery

- Landfill / incineration / losts:
  - landfill
  - incineration
  - losts

## Most important output flows

Raw material use:

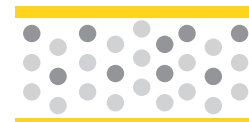

Iron

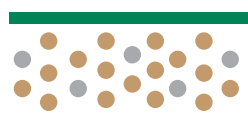

fuel gas

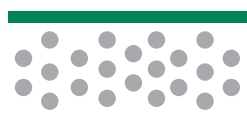

Energetic use:

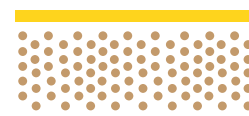

PU waste

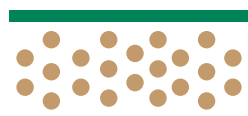

non-ferrous metals

foam component

PU mixed waste (labels)

cardboard
