

Cooking oils and greases - Resources potential

Product receiver:
Biowerk Sohland GmbH, D-Sohland an der Spree

- Raw material use:
 - preparation for reuse
 - material recycling

- Energetic use:
 - production of a substitute fuel
 - energetic recovery

- Landfill / incineration / losts:
 - landfill
 - incineration
 - losts

Most important output streams

Raw material use:

Biodiesel

Methanol

Glycerin

Energetic use:

Co-substrates for biogas plants

Landfill / incineration / losts:

Water from treatment process
