

# Cooking oils and greases - resources potential

Product recipient:  
Münzer Bioindustrie, A-Wien / A-Gaishorn am See  
www.muenzer.at

94,43%

- Raw material use:
  - preparation for reuse
  - material recycling

- Energetic use:
  - production of a substitute combustible
  - energetic recovery

- Landfill / incineration / losts:
  - landfill
  - incineration
  - losts

## Most important output streams

Raw material use:

Biodiesel

Pharmaglycerine

Potassium sulphate  
(Fertilizer)

Landfill / incineration / losts:

Water and mucilage
