

PU foam cans (emptied - without special items) - resources potential

Product recipient:
PDR Recycling, D-Thurnau
www.pdr.de

PRODUKTE DURCH RECYCLING

- Raw material use:

 - preparation for reuse
 - material recycling
- Energetic use:

 - production of a substitute combustable
 - energetic recovery
- Landfill / incineration / losts:

 - landfill
 - incineration
 - losts

Most important output flows

Raw material use:

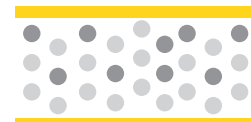

Iron

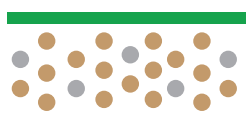

fuel gas

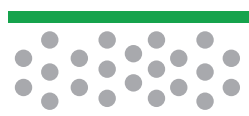

Energetic use:

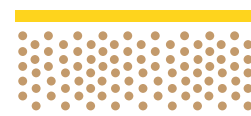

PU waste

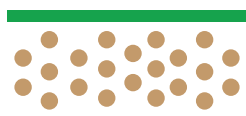

non-ferrous metals

foam component

PU mixed waste (labels)

cardboard
