INDAVER

Old product treated under the responsibility of

ecutrel
association sans but lucratif

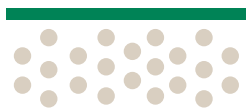

- Raw material use:
 - preparation for reuse
 - material recycling

- Energetic use:
 - production of a substitute fuel
 - energetic recovery

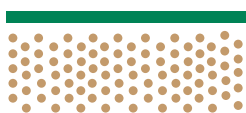

- Landfill/incineration/losses:
 - landfill
 - incineration
 - losses

Most important output streams

Raw material use:

Glass

Non-ferrous metals
(aluminium/copper)

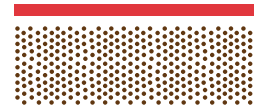

Iron

Energetic use:

Plastics

Landfill/incineration/losses:

Fluorescent powder with rare earths

Plastics
