

Oil/Diesel-fuel filters - Resources potential

Product recipient:

Oilco S.A. - RD Recycling, B-Houthalen-Helchteren

www.oilco.be

- Raw material use:
 - preparation for reuse
 - material recycling

- Energetic use:
 - production of a substitute fuel
 - energy recovery

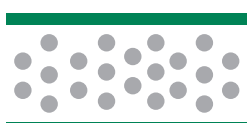

- Landfill/incineration/losses:
 - landfill
 - incineration
 - losses

Most important output streams

Raw material use:

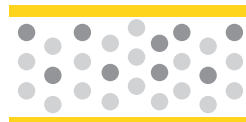

Metals

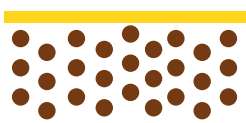

Used oils

Energetic use:

Filter inserts

Paper

Landfill/incineration/losses:

water
