

PU foam cans (emptied - without special items)

- resources potential

Product recipient:
PDR Recycling, D-Thurnau
www.pdr.de

PRODUKTE DURCH RECYCLING

- Raw material use:
- preparation for reuse
- material recycling
- Energetic use:
- production of a substitute
 combustable
- energetic recovery
- Landfill / incineration / losts:
- landfill
- incineration
- losts

Most important output flows

Raw material use:

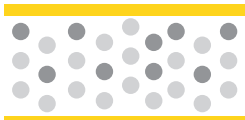

Iron

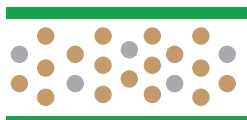

fuel gas

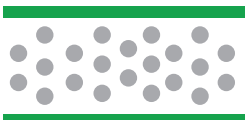

Energetic use:

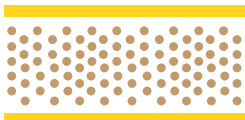

PU waste

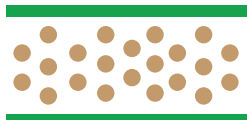

non-ferrous metals

foam component

PU mixed waste (labels)

cardboard
