Oil/Diesel-fuel filters - Resoures potential

Product recipient:
Oilco S.A. - RD Recycling, B-Houthalen-Helchteren
www.oilco.be

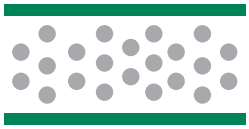

- Raw material use:
  - preparation for reuse
  - material recycling
- Energetic use:
  - production of a substitute fuel
  - energy recovery
- Landfill/incineration/losts:
  - landfill
  - incineration
  - losses

Most important output streams

Raw material use:

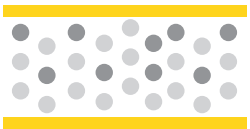

Metals

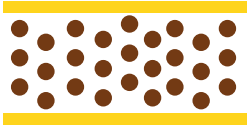

Used oils

Energetic use:

Filter inserts

Paper

Landfill/incineration/losts:

water
